

ROPE

Duradan Rope

Is an excellent all-purpose rope, in sizes from 3mm to 48mm. Standard lengths are 110m & 220m for the 8mm to 48mm dia, 220m, 500m & 1000m for 3mm dia & 220m or 660m for 6mm dia. It's made from blending Polypropylene & Polyethylene resins.

Superdan Rope

This rope has superior strength with excellent abrasion resistance. The rope is flexible, doesn't rotate or kink, it is easily handled and fully splicable. Available in longer lengths than Duradan

DYNICE Rope

DYNICE ropes are made from Dyneema® DYNICE ropes exceed the strength of steel wire ropes of same diameter & can float on water. They have low elongation and are extremely flexible, easy to handle and available in long lengths.
