

# BELLMOUTH ROLLER

The Bellmouth Rollers are proudly manufactured by Powerhowse Electric, from cast aluminium and then powder coated to provide a clean finish.

Designed to protect your cable and hauling rope from the sharp edges on the duct/conduit at the entry point, it is Fitted with a Steel Roller on one side to reduce friction on cable and damage caused by steel pulling wires. They can split for easy removal from Cable and Duct and allows them to be reused. Suits 80mm to 150mm AU/NZ Conduit.
