

BLOW CONES & SEAL- OFF KITS

Our **Blow Cones**, Manufactured by Powerhowse Electric have 3 grooves and be used to blow either 12mm blowing tape, 3mm or 6mm rope. We recommend that you block the 2 grooves not in use by filing the gaps with blue tac or chewing gum to stop air for escaping whilst blowing.

Condux Seal-Off work in conjunction with the Seal-Off control valve, the seal-offs are available as a single or double, please see sizes below to suit your duct. Used for sending chutes or other projectiles through conduit while dragging a pull string or pull tape.

Seal-Off Control Valve Body, works with the Condux seal-offs, allowing the purchase of a single valve body that can be used in conjunction with many different sized Condux seal off. Different size rope adapters are available on request.
