

BRUSHES

Powerhowse Electric supplies a range of equipment for your conduit needs. Our Brushes are used to clean and remove dirt and other loose debris from ducts or conduits. Proudly New Zealand made, it is recommended to use 2x 12mm Shackles (one shackle for pulling into the duct the other to pull back) and two ropes prevent the risk of the Brush getting stuck. Our range includes steel wire, half steel/half nylon stiff nylon and soft nylon, all in different sizes to suit the duct diameters from 50mm to 200mm. **Note:** Shackles are not included and is purchased separately.

We also have proving pigs, squeegee etc available at Powerhowse Electric.

WIRE STIFF

Steel Wire Brush c/w Pulling Eyes on both side

PRODUCT CODE	SIZE (MM)	DIMENSIONS L x W x D
30047	50mm	200mm x 50mm x 50mm
