

CAPSTAN WINCHES

500kg Rated Winch

1 Ton Rated Winch

2 Ton Rated Winch

Each of our Petrol Capstan Winches have a different hauling rating and each come with 2 different size capstans for either more Torque or Speed. Capstan winches allow you greater control over the Pull as you can feel the tension being applied. A Crane Scale (Dynamometer) can be placed between the anchoring point and the Winch to show haul tensions and all Winches come with an A-Frame anchor.

IMPORTANT – CAPSTAN WINCHES ARE NOT TO BE USED FOR VERTICAL LIFTS.

CODE	DESCRIPTION	DIMENSIONS L x W x D	WEIGHT
30340	500kg Rated Petrol Winch	1000 x 680 x 450	90kgs
