

## DOMESTIC REEL

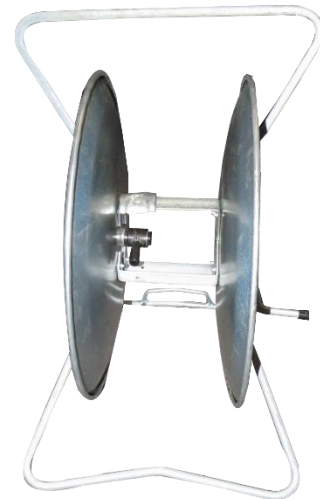

The Geco Disc Reels, proudly manufactured by Powerhowse Electric is available as a Hose Reel with Hose Fitting or a Rope Reel with Metal Fitting. Basic and functional with solid discs to prevent hose or rope popping through the sides. The disc sides are galvanised, and the frames are made with all metal construction and electroplated for rust protection.

The hose reel, designed for domestic garden use **holds up to 30 metres of standard 13mm garden hose.** Repair kits available.

**Note:** Please see the chart below to gauge the maximum capacity of the rope reel, measurement is in meters and is an indicative guide only.

**Outer Geco Disc Hose Reel**

**Inner Geco Disc Hose Reel**
