

L-SHAPED & LONG ROLLERS

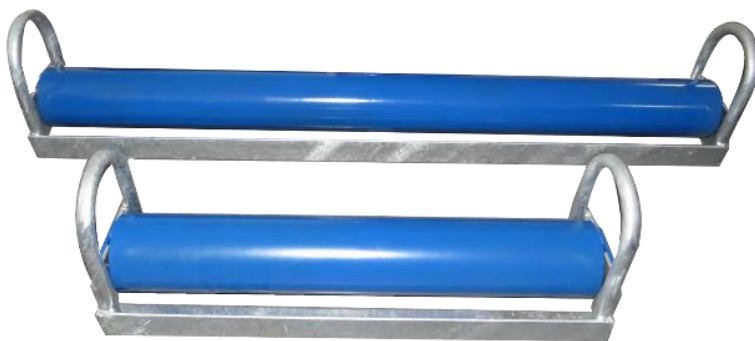

The L-Shaped and Long Rollers is proudly made by Powerhowse Electric; the frame is fabricated from steel in our Auckland Factory and then galvanised for protection from the weather.

The **L-Shaped Dog Bone Rollers** are ball bearing. It can be used either to align cables or large radius bends. This roller is ideal for adding to the end of our 4 Corner, 3 Curve and 5 Curve rollers.

L-Shaped Dog Bone Rollers
