

PIT LID LIFTER

Available to buy or to hire, our Pit Lid Lifters are easy to use and makes lifting the cover off a manhole uncomplicated to do. Proudly designed and manufactured by Powerhowse Electric, the frames is fabricated from steel with the Manual Manhole Pit Lid Lifter electroplated, and the Hydraulic Lifter galvanised for protection from the weather.

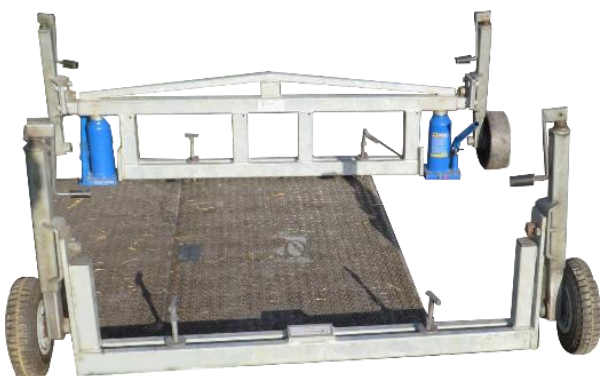

Place the lifting eye in the lid slot, leverage down on the lifting bar and wheel the lid out of the way once it has lifted out of the manhole.
